## **| Intelligent shop?**

in the era of great changes in retail, growing popularity of e-commerce shopping, your shop also needs technical support and "smart" solutions.

# Smart Shop Control

**Remote monitoring system for refrigeration equipment in small and large commercial facilities.**

Thanks to SSC, facility owners, store staff and service technicians can remotely and at any time see and decide about the parameters of the cabinet operations. Communication with refrigeration equipment is possible via any smartphone, tablet or computer.

# Smart Shop Control
